

Accidental Counsellor

Course

A healthier headspace equals a healthier workplace.

The Lifeline Corporate Training program offers a range of courses to improve the mental health and wellbeing of your people, which in turn can help create a more productive, cost-effective and responsible workplace.

**Duration: 2 hrs e-learning and
4 hrs face to face**

A colleague, client or friend displays signs of stress, anger, depression and despair. What do you do? Are you equipped to handle this? What do you say?

Accidental Counsellor is emotional awareness training designed to provide participants with the basic knowledge and skills to support someone who is experiencing an emotional crisis. The session will also highlight the importance of self-care and taking responsibility for your own emotional wellbeing.

Qualified, experienced Lifeline trainers deliver the training, and participants will receive a Statement of Attendance upon completion of this course.

Please note: The Accidental Counsellor course does not qualify you to be a counsellor or provide ongoing support. Participants will not receive any counselling qualification at the end of this training.
